

KARIONG - SOMERSBY TO DOG TRAP RD - 36KM

36 km ride

Ride starts at Kariong Shell service station; turn left onto the Central Coast Hwy (going towards Sydney), & turn right at the first set of lights - into Kangoo Rd. Follow the road to the end, where you turn left into Debenham Rd, ride up the slight hill to the top & veer left onto Gindurra Rd, which takes you under the F3 bridge (very bumpy road with loads of potholes!). Take first right into Chivers Rd & climb to the top where you meet up with Debenham Rd (turn left). Follow Debenham to the end where you turn right into Wisemans Ferry Rd.

Wisemans Ferry Rd varies a lot, giving you a taste of nice wide shoulders in parts and then absolutely terrible jagged, potholed, sloping edges with nowhere to go in other parts - so it's good to stay focussed along here - especially if there are a lot of trucks around, Get off your bike if there's not enough room... :) Follow the road through the 2 sharp 'bends' & up past the Peats Ridge intersection, where you shortly after turn right into Dog Trap Rd. Follow the road (a meandering down-hill ride) to the F3 bridge where you can take a short break (photo opportunity), before turning around & coming back the same way.

Except: at the bottom of Chivers Rd, turn right into Gindurra & go up to the roundabout, turn left onto Wisemans Ferry Rd for a nice smooth sail back to the Hwy. Turn left & ride up to the servo to complete this country ride.
